The Rotary Reserve features a large, year-round multi-purpose building for group gatherings with an indoor seating capacity of 300 people. Its remote and tranquil location on the banks of the Cedar River make it ideal for weddings, receptions, reunions, retreats, business meetings, festivals and other large group events.

The building is fully accessible for persons with disabilities. The center has a 3,600 square foot multi-purpose room that is heated and air conditioned. The southeast wall consists of 15' high windows with a spectacular view of the grounds and the Cedar River. The center also has a full kitchen allowing you to prepare your own food or have your event catered. Alcoholic beverages allowed include beer, wine, champagne and keg beer. All events with alcoholic consumption must have a uniformed security person present.

There is a large expansion of the deck including two levels, a gazebo, B-B-Q grills, and a pavilion. Both are accessible from the multi-purpose room, allowing access to the grounds below. The grounds include a large open playing field with access to the Cedar River and the pond. This makes it possible for your group to enjoy a spacious recreational area in conjunction with the building.

With the expansive grounds of the reserve there are also 100 parking spaces for larger events.

Reservations may be made starting January 2nd for the following year.
